Usage Design:

Perform real time pcr analysis using dna or cdna, complim

Test Capability Quantity:

200

Component Breakdown Within Each Test Kit:

Contents: sybr green dye, amplitaq gold dna polymerase; p

Special Features:

Reagent assay, polymerase chain reaction; store at 2 to 8 degrees c; requires no thawing, easy to mix; 1.5 ml bottle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
