Storage Temperature Range:

+2.0/+8.0 degrees celsius

End Application:

6630-01-548-6268 chemical identification system

Product Name:

Performance standard concentrator air in methanol 1.2ml

Special Features:

1.2 ml bottle of liquid reagent containing the following five compounds: fluorobenzene 20 micrograms per ml, toluene d-8 20 micrograms per ml, chlorobenzene d-5 20 micrograms per ml, 1, 4 dichlorobenzene d-4 20 micrograms per ml, diethylmalonate 20 micrograms per ml

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
