**Usage Design:**

Human immunodeficiency virus detection

**Test Capability Quantity:**

20

**Product Name:**

Determine hiv 1/2 serum and plasma

**Test Media:**

Plasma or serum

**Special Features:**

Storage temperature: 2 to 30 degrees c; time to result: 15 minutes; method: lateral flow; approx. Shelf life: 14 months

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510v0
