Usage Design:

Human immunodeficiency virus detection

Test Capability Quantity:

20

Product Name:

Determine hiv 1/2 serum and plasma

Test Media:

Plasma or serum

Special Features:

Storage temperature: 2 to 30 degrees c; time to result: 15 minutes; method: lateral flow; approx. Shelf life: 14 months

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
