End Application:

Medical and laboratory testing equipment

Product Name:

Il-10 rat elisa kit

Special Features:

Quantifies natural and recombinant rat il-10 inserum, buffered solution, or cell culture medium. Il-10 is a lymphokine involved in immune response

Supplementary Features:

Concentration-15.6-1000 pg/ml; detect method-colorimetric; gene id-25325; incubation time-3 hrs; marker-il-10; platform-microplate reader; product size-96 test; readout enzyme-hrp; research category-immunology; sample typ (specific) -erum; supernatants; sample volume-50ulstore kit at 2-8deg c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
