**End Application:**

Medical and laboratory testing products

**Product Name:**

Tnf-a rat elisa kit

**Special Features:**

Kit quantifies natural and recombinant rat tnf-a in serum, buffered solution, or cell culture medium; tnf-a (tumor necrosis factor) is produced by macrophages and has many immune effects; concentration-15.6-1000pg/ml

**Supplementary Features:**

Detection method-colorimetric; gene id-24835; incubation time-2.75hrs; platform-microplate reader; product size-96 tests; readout enzyme-hrp; species-rat

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23800
