Usage Design:

To perform a bisulfite modification on a dna sample

Product Name:

Cpgenome fast dna modification kit

Component Breakdown Within Each Test Kit:

90584 dna modification reagent 6g room temperature 1; 90585 binding buffer 20ml room temp. 1; 90586 wash buffer 12ml room temp. 1;

90587 elution buffer 1.5ml room temp. 1; 90588 dna modification columns 25 room temp. 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
