Special Features:

Acetonitrile solvent; 1 ml/ampule unit size; 1000 ug/ml concentration; 82 degrees (acetonitrile) boiling point; 218 degrees c trinitolglycerin explodes; -45 degrees c (acetonitrile), 13 degrees c trinitolglycerin melting point; 1.42 acetonitrile, 7.84 trinitolglycerin vapor density; solubility - miniscule acetronitrile; insoluble trinitolglycerin; colorless liquid; ethereal odor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
