Product Name:

Creatine kinase-mb (ck-mb) 2 x 22 ml r1-1 2 x 4 ml r1-2 2 x 6 ml r2

Special Features:

Reagent for the quantitative determination of creatine kinase-mb isoenzym in human serum and plasma. Used in the diagnosis and treatment of myocardial infarction and muscle disease, such as progressive dechenne-type muscular dystrophy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10000
