Physical Form:

Powder

Product Name:

Ascorbic acid powder pillows 100s

Special Features:

Reagent for aluminum determination by the aluminon method (method 8012), manganese determination by the pan method (method 8149), and total chelant determination by titration (method 8350); parameter aluminum, chelant, manganese; for use with end item

6630-01-571-7779, water quality control set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10800
