Media For Which Designed:

Staphylococcus aureus

Protective Storage Feature:

Requires refrigeration storage between 2 to 8 degrees celsius

Primary Container Content Quantity:

6.0 disk

Product Name:

Disc bacteria culture control staphylococcus aureus 6s

Special Features:

Contains 6 lyophilized pellets containing a single strain of staphylococcus aureus subsp. Aureus atcc 29213 for quality control; lyfo disk; store at 2-8 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10000
