End Application:

Pcr & rt-pcr applications

Usage Design:

Rapid high purification of dna & rna from diverse samples

Product Name:

Total nucleic acid isolation kit

Special Features:

Samples-feces, whole blood, milk, urine, nasal fluids, swab samples, semen, sputum, spent culture medium, bacterial cultures & mammalian cell culture

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
