Physical Form:

Liquid

Quantity Within Each Unit Package:

4.0 liters

Product Name:

Water, reagent, deionized 4 liter

Special Features:

Water deionized (astm type ii); chemical formula h₂o; 4 liter container; poly bottle; clear liquid; colorless; odorless; ph, 7; boiling point, 100 degrees celcius (212.00 degrees fahrenheit); molecular weight, 18.0134; specific gravity/density, 1.0

Specification Or Standard:

Peii type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10800
