Product Name:

Taqman universal master mix ii no ung 5 ml bottle 200 reaction

Special Features:

Optimized formulation for all quantitative real-time pcr applications: gene expression analysis, micro rna analysis, snp genotyping, validation of rnai-induced gene knockdown and microarray results, pathogen detection and viral load quantification. 5 ml bottle 200 reactions.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510v0
