Product Name:

Taqman environmental master mix 2.0 1 pk 5 ml bottle 200 reactions

Special Features:

Tailored for quantitative real-time pcr experiments. Unrivalled sensitivity for challenging applications, low copy number target detection and multiplex pcr. Ideal for environmental, food and other challenging samples. Includes pathogen detection and viral/bacterial load quantification. Used for research only. Protect from light, store at 2-8 degrees c, 5 ml bottle, 200 reactions.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510v0
