Overall Length:

10.380 inches

Overall Height:

2.850 inches

Overall Width:

5.250 inches

Component Type And Quantity:

1 printed wiring board and 8 spring and 4 stud

Special Features:

Mounting method: turnlock fastener; component quantity: 15; mounting configuration: four turnlock fastners on 4.500 in.By 4.875 in.Mtg centers; fsc application data: control indicators, radar, nonairborne, except fire control and guided missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
