**Overall Length:**

5.025 inches

**Overall Height:**

0.593 inches

**Overall Width:**

2.325 inches

**Component Type And Quantity:**

2 capacitor and 4 holder and 2 insulator and 1 mount and 10 resistor and 6 diode and 35 terminal and 5 transistor and 1 board

**Special Features:**

Mounting method: holes; component quantity: 74; mounting configuration: three 0.141 in.Dia holes irregularly spaced; fsc application data: control-indicators, electronic identification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511I0
