**General Description:**

24.500 in. Lg, 23.000 in. W, 12.875 in. H, required inputs 120 volts 60 hertz single phase, 120 volts 400 hertz single phase, major components, amplifier 3, diode 14, gear 83, servo motor 2, synchro 19, transformer 7, transistor 3

**Fsc Application Data:**

Converter navigation system

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
