Overall Length:

7.650 inches

Overall Height:

0.500 inches

Overall Width:

5.780 inches

End Application:

Inertial navigational set an/asn-86

Component Type And Quantity:

2 cable and 1 cover and 1 heatsink and 2 printed wiring board

Special Features:

Supplementary features: two, 0.143 inch diameter mounting holes on 7.318 inch mounting centers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
