

View Online at <https://aerobasegroup.com/nsn/6605-00-542-1428>

Special Features:

Edial data, 16 compass rose scale, 0 to 359 degrees scale range, 1 degrees smallest increment of graduation, magenta, relative wind scale, 4 quadrants 0 to 90 degrees scale range, 1 degrees smallest increment of graduation, black, miles scale, logarithmic scale range, 0.1 smallest increment of graduation, black, minutes scale, logarithmic scale range, 0.1 smallest increment of graduation, black, hour scale, 1 to 10 hr scale range, 5 min smallest increment of graduation, black, density altitude scale, 10 to 80 m ft scale range, 1000 ft smallest increment of graduation, black, wind scale, 1 to 90 degrees scale range, 1/2 degrees sm increment of graduation, black, air temp scale, 80 to plus 50 degrees c scale range, 5 degrees sm increment of graduation, black, pressure altitude, 0 to 80 t ft scale range, 1000 ft sm increment of graduation, black, drift correction scale, 2 to 18 degrees scale range, 1/2 degrees smallest increment of graduation, black, calibrated air speed scale, 100 to 1800 knots scale range, 2 knots smallest increment 0

Specification Or Standard:

Mb-9 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30800
