End Application:

F-16 acft

Criticality Code Justification:

Feat

Special Features:

Electrostatic discharge sensitive

General Description:

Welectric control amplifier c703148033 1; synchro resolver cm01036705 1; servo motor cm40132006 1; transmitter control cm41014018 3; capacitor 1; connector receptacle electric c520011464 1; resistor rcr05g103js and rcr05g153js 1 ea

Fsc Application Data:

Inertial navigational unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
