End Application:

Inertial navigation system

General Description:

Wmaterial stainless steel, qq-s-764, cl 416, cond a; surface passivated, mil-f-14072, e-200; finish 16.0 and 63.0 microin.; front surface angle, 45 degrees below slotted flange, 0 deg-10 min-30 sec; heat treatment, es2013, rc 31.0 min. Hardness

Fsc Application Data:

Accelerometer, 7879100-021, fscm 99974

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
