End Application:

Navigational instruments

Transmission Type:

Synchro

Special Features:

Long term stability, high accuracy, high reliability, fluid floatation, proved design, electrolytic gravity sensor, directional byro mode for above 75 degrees latitude, control cabinet design with plug-in module

Frequency In Hertz:

400.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T261-e
