**End Application:**

Navigational instruments

**Transmission Type:**

Synchro

**Special Features:**

Long term stability, high accuracy, high reliability, fluid floatation, proved design, electrolytic gravity sensor, directional byro mode for above 75 degrees latitude, control cabinet design with plug-in module

**Frequency In Hertz:**

400.0

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T261-e
