End Application:

Inertial navigational system, f-117-a aircraft

Functional Description:

Provides emergency despin voltage for spindown of ins gyros upon loss of aircraft power

General Description:

Basic unit 34084631-003 rotor support power assembly; 28 volts dc; dim: 4.82 in. W by 5.91 in. Ht

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
