Overall Length:

3.750 inches

Overall Height:

3.250 inches

Overall Width:

3.750 inches

End Application:

Set, program, test, rtag assembly/p/n 717769110-009; f15i aircraft support

Product Name:

Clinometer

Special Features:

Linearity type 0 to 20 deg; +/- 0.05 deg; resolution +/- 0.01 deg; range +/-60 deg; repeatability .05 deg; output rs232c.V.24 and v.28 asynchronous interface compatible; power supply 5 to 16vdc; mating connector ms3116f10-985; operating temperature range -20 to +65 degrees c

Functional Description:

Clinometer is characterized to significantly improve linearity and temperature characteristics; the result is +/- .05 degrees accuracy at a lower cost ever before possible

Reference Data And Literature:

Csto 33d-42-22-2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
