Special Features:

Solid state; accuracy 0.1 rms; 2 cases 43 in lgth; ht 20.5 in; width 27 in; 13.8 cu ft ea; 25 vdc; 115/220 vac; 50/60 hz; 50 watt; built in fault detector; compat w/any compass system magnetically slaved to flux valve, compass transmitter or mag azimuth detector; mag field range .08 to .40 oersted; uses mc2 interconnect cables; precisely calibrates magnetic compass systems on military and commercial aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
