Overall Length:

8.750 inches

Overall Height:

3.772 inches

Overall Width:

6.880 inches

Environmental Protection:

Submersible

Average Life Measurement:

Not rated

End Application:

Next assembly 6160100; used on Isd-44

Basic Shape Style:

Rectangular or square

Identification Designator:

6160020-62884

Inclosure Type:

Encapsulated

Installation Design:

Portable and mobile and mechanical

Circuit Construction Type:

Solid state

Product Name:

Isolation amplifier

Special Features:

N1 steel panel; 4 isolation mounts; 2 isolation amplifier pot inputs; 1 nylon tyrap mount; 1 phillips screw p.H. 6-32x0.500 stainless steel; 8 lock washers no. 6 ss; 2 flat washers no.6 ss; 6 nuts no.6 ss; and 1 nameplate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
