Overall Height:

2.900 inches

Current Type:

Dc

Overall Diameter:

3.700 inches

End Application:

P5cts

Mounting Method:

Ring

Product Name:

Inertial measurement unit, 3 deg.

Special Features:

Mounting ring diameter 5.0 in.; +/- 15vdc, +/- 5vdc input voltages; hermetically sealed; unit weight approx. 1.6 lb.; output data rate 100hz/600hz; gyro input range +/- 1000 deg/sec; gyro rate scale factor 150 ppm; accelerometer range +/- 50 g; accelerometer lineari type 500 ppm; accelerometer scale 300 ppm; programmable, expandable serial i/o with rs422 interface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T261-a
