Overall Length:

2.970 inches

Overall Height:

2.374 inches

Overall Width:

1.863 inches

End Application:

Helicopter simulator

Illuminated Feature:

Included

Illuminated Location:

Over

Design Type:

Side reading

Mounting Method:

Bracket

Smallest Increment In Deg:

1.0 dial

Product Name:

Compass

Special Features:

48 inch electrical connector attached; housing black; card black with yellow markings; yellow lubber line

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T261-d
