Overall Length:

6.500 inches

Overall Height:

6.400 inches

Overall Width:

6.400 inches

Actuation Method:

Digital ring laser

Electrical Connection Quantity:

1

Mounting Method:

Base

Mounting Point Quantity:

1

Special Features:

Attitude 0.1 degree; heading 0.4 degree; inertial position 2 nmph; hybrid position 25m; inertial veloci type 8 knots; hybrid veloci type 0.25 knots; 25, 000 hours operating time; power consumption 20w; passive cooling; quartz accelerometer technology; accuracy two sigma or 95 percent; integrated gps; tray mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T261-a
