**Overall Length:**

6.500 inches

**Overall Height:**

6.400 inches

**Overall Width:**

6.400 inches

**Actuation Method:**

Digital ring laser

**Electrical Connection Quantity:**

1

**Mounting Method:**

Base

**Mounting Point Quantity:**

1

**Special Features:**

Attitude 0.1 degree; heading 0.4 degree; inertial position 2 nmph; hybrid position 25m; inertial veloci type 8 knots; hybrid veloci type 0.25 knots; 25, 000 hours operating time; power consumption 20w; passive cooling; quartz accelerometer technology; accuracy two sigma or 95 percent; integrated gps; tray mounted

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T261-a
