Overall Length:

1.544 inches

Overall Height:

0.581 inches

Overall Width:

1.031 inches

Current Type:

Dc

Mounting Method:

Plate

Mounting Point Quantity:

3

Voltage In Volts:

6.0

Special Features:

Inertial-based tracking from integrating of 9 sensing elements; sourceless tracking w/360 degrees range; 180 hz update rate; adjustable output filters and rotational sensibility

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T261-a
