Special Features:

Tmeter mvt indicator; 1 presentation, rudder mvt, rudder meter deflects tp left for pos polarity, 30-0-30 v range, 30v input signal amplitude reqd for maximum deflection; 2 presentations, aileron mvt, aileron meter deflects ccw for pos polarity; elevator mvt, elevator meter deflects down for pos polarity, 15-0-15 v range, 15v input signal amplitude reqd for maximum deflection; 1 x 3in. Dial dim.; dial has nonluminous letters w/black background; o/a dim. 1.295 in. Deep, 3.500 in. W, 1.860 in. Hg; panel mtd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A534v0
