End Application:

For use on cargo, trainer and transport acft

Usage Design:

Air speed and angle of attack

Presentation Type:

Dial

Knob Quantity:

2

Special Features:

6provides continuous indication of airspeed, mach number and angle of attack; command information is presented in terms of mach number and indicated airspeed; parameters are presented on a vertical scale 5 inches high by 3/4 inches wide; mechanization provides a moving tape scale read against a fixed reference on a lubber line at the center of the vertical scale; 3 scales indicated airspeed range 50-600 knots with smallest increment 10 knots finish nonluminous; aircraft mach range .2 to 1.2 mach with smallest increment 0.01 mach finish nonluminous; angle of attack range -10 to +25 degrees with finish red and black cross hatching non luminous numerals and grads not used; includes command mach counter and command airspeed counter; integral 5 v ac lighting

Supplementary Features:

Tech order 5f8-8-10-4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A532c0
