Overall Length:

6.340 inches

Overall Height:

3.100 inches

Overall Width:

3.840 inches

End Application:

F16 aircraft

Voltage In Volts And Current Type:

12.0 dc

Functional Description:

Receives digital inputs - records flight & structural data in an internal 28 k memory chip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
