**Overall Length:**

6.340 inches

**Overall Height:**

3.100 inches

**Overall Width:**

3.840 inches

**End Application:**

F-16

**Voltage In Volts And Current Type:**

12.0 dc

**Functional Description:**

Receives digital inputs - records flight & structural data in an internal 28 k memory chip

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
