Aircraft Inclinometer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6610-01-331-4006

End Application:

Autocollimator assembly

Special Features:

Measurement range minus 3 degrees to pos 3 deg; input voltage: porm 12vdc to porm 18vdc; output impedance: 5k; oper temp range: m18 degrees c to p71 degrees c; survival temp range: m40 degrees c to p75 degrees c; constant acceleration overload: 50g; shock survival: 1500g; vibration endurance-random: 35g rms, 20 hz to 2000hz

Supplementary Features:

This inclinometer does not have areadout or display-it is just the sensor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T261-a
