Overall Length:

8.500 inches

Attachment Device Quantity:

2

End Application:

4920-01-150-2040 adapter test station

Mounting Method:

Plate

Mounting Position:

Any acceptable

Electrical Heating Element:

Not provided

Special Features:

Item consists of probe body; base plate and modified fitting made from an919-1 reducer fitting

Functional Description:

Measures total pressure during engine test runs on test stand

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T261-a
