**End Application:**

B-1b

**Transducer Quantity:**

3

**Sensing Element Type:**

Any acceptable

**Special Features:**

Converts air pressure inputs to digital output signals; pressure input from aoa, pitot pressure, static signals sent to cadc; compares pressure from pitot-static & aoa & computes the digital signal to send to cadc which converts it to aoa

**Reference Data And Literature:**

T.O. 5f12-8-6-3

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T261-a
