End Application:

B-1b

Transducer Quantity:

3

Sensing Element Type:

Any acceptable

Special Features:

Converts air pressure inputs to digital output signals; pressure input from aoa, pitot pressure, static signals sent to cadc; compares pressure from pitot-static & aoa & computes the digital signal to send to cadc which converts it to aoa

Reference Data And Literature:

T.O. 5f12-8-6-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T261-a
