Overall Depth:

6.825 inches

Overall Height:

3.250 inches

Overall Width:

3.250 inches

Contact Quantity:

26

End Application:

Coast guard hh-65a helicopter

Contact Type:

Male pin

Scale Quantity:

1 and 1 and 1

Scale Name:

Altitude and altitude and barometric pressure

Electrical Connection Quantity:

1

Pointer Quantity:

1

Scale Marking And Surface Finish:

Numerals fluorescent err-100

Mechanical Connection Quantity:

1

Mechanical Connection Size:

0.500 in thread size; 18 threads per inch

Mechanical Connection Type:

Internal unf boss

Knob Quantity:

1

Knob Purpose:

To set barometric pressure as indicated on the in hg counter

Pointer Color:

White

Mounting Method:

Hole

Scale Range:

1000 to 38000 feet on the altitude dial indicator and counter; 28.1 to 31.0 in hg on the barometric pressure counter

Scale Smallest Increment Graduation:

50 feet on the dial indicator; 100 feet on the altitude counter; 1 in hg on the barometric pressure counter

Special Features:

This item is modified from niin 6610-00-134-5625. The modification enables compatibility with the night vision goggle (nvg) system utilized by the u.S. Coast guard. An encoder is provided, which converts analog altitude data into digital form to be transmitted to the transponder for air traffic control use. A code off flag displays when power is removed from the encoder

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T261-a
