Width:

3.250 inches

Depth:

7.500 inches

Usage Design:

Air speed

Information Recorded:

Wind speed

Individual Marking:

Mach knots

Electrical Connection Quantity:

1

Pointer Purpose:

Indicate pressure and static mach air speed

Pointer Type:

Clock-hand all pointers

Height:

3.250 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A532c0
