Width:

241.0 millimeters

Length:

308.0 millimeters

Frequency Rating:

Between 47.0 hertz and 1200.0 hertz

Product Name:

Angle position indicator

Special Features:

Two channel, 0.01 degrees resolution, 0.03 degrees accuracy; auto compensation of phase shift errors; autophase correction

Height:

60.0 millimeters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A53200
