Overall Length:

15.000 inches

Overall Height:

8.000 inches

Overall Width:

8.000 inches

End Application:

C-17 effectivi type 17a0142-999

Special Features:

Power 115vac, 400hz, 1 phase; rack mounted inputs received fromn the mission computer to generate the various display formats

Functional Description:

Provides full color, high resolution 6 x 6 inch display; displays flight data, plan position indicator, end position, engine instrumentation and weather data

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
