Width:

123.9 millimeters

Length:

165.1 millimeters

End Application:

Rudder trim indicator assembly

Product Name:

Indicator , angle

Special Features:

Case: black anodized; bezel: flat gray bac no. 703; lighting: integral whie per boeing specification d6t10783-1; range; o to 17 scale units; operating temperature: -22 through 158 fahrenheit; weight: 1.03 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A53200
