Electrical Connection Quantity:

1

Electrical Heating Element:

Provided

Heating Element Current Type:

Ac

Heating Element Voltage In Volts:

115.0

Special Features:

Hermetically sealed de-icing heater; consists of a probe, strut, baseplate and de-icing heater; 400 hz; 270 watts inflight, 49 watts ground still air operation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T261-a
