Tempurature Rating:

275.0 degrees fahrenheit

Overall Height:

4.410 inches

Overall Width:

4.150 inches

Pressure Rating:

3000.0 pounds per square inch

Integral Valve Operation Method:

Electric

Design Characteristics:

Double acting single cylinder

First Piston Rod End Style:

Bearing type

Special Features:

Manufacturers name: servoactuator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A34200
