Overall Length:

6.468 inches

Overall Height:

1.500 inches

Overall Width:

5.750 inches

End Application:

C130h

Voltage In Volts And Current Type:

27.5 dc

Product Name:

Flight mode selector

Special Features:

White lighted, connectors ms3112e-16-26p and ms3112e-16-26py

Functional Description:

Pushbuttons control modes, apcpld, alt, hdg, nav loc, and appr; when button is depressed a flag with the word "on" appears; flag is out of view in "off" condition

Reference Data And Literature:

5a9-8-6-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
