Overall Length:

5.500 inches

Special Features:

Header potting shall conform to mil-m-24041, category b; excitation voltage output at pin 9 shall be in phase w/ excitation voltage at pin 1 for pos. Gimbal angles; torquer - pos. Voltage excitation at pin 4 shall produce pos. Gimbal angles; spin motor - excitation shall produce pos. Wheel rotation; gyro. Wt. Less cable, 5 oz. Max

Relationship To Similar Equipment:

Modification of nsn 6605-01-412-3089, p/n 446260, for use in naval fire control system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T261-b
